MAP International Reflects on Their Impact in 2020 and Prepares for the Next Year with Day of Prayer

Brunswick, GA, October 20, 2020 – MAP International, a Christian nonprofit organization that provides medicines and health supplies to nearly 100 countries in the world, served a staggering 20 million people during their 2020 fiscal year.

In 2020, MAP provided over 650 partners with prescription and over-the-counter medicines and vital health supplies, helping to meet the needs of the most vulnerable people all over the world. MAP wrapped up their fiscal year in September, serving over 1.4 million people in that month alone.

MAP International also supports the work of medical missionaries by supplying Medical Mission Packs and custom ordered prescription and over-the-counter medications that best meet the needs of the people they are serving. In September, MAP served 7,500 people through these medical mission packs. The organization also sent 5,750 Disaster Health Kits (DHKs) last month to areas of Louisiana and Texas that were affected by Hurricane Laura.

In response to the ongoing COVID-19 crisis, MAP International has been working continuously to reach frontline medical workers, as well as disaster victims, with critical relief supplies. To date, MAP has provided more than 4 million people with necessary supplies such as face masks, face shields, cough suppressants, fever reducers, and infrared thermometers. This number represents a mere fraction of MAP's overall impact, however, because nearly every shipment from MAP after January 2020 has included PPE for frontline medical workers all over the world.

Despite a tumultuous 2020, MAP International remains prepared for the work ahead and steadfast in their mission. On October 1, the organization began its new fiscal year with their entire team in prayer. The staff prayed over their mission, their faithful donors, and the beneficiaries of MAP's work. Whatever needs or disasters await in the coming year, MAP International stands ready to bring hope and healing to those in need around the world.
