**To the 2 billion people in the world who lack access to basic medicine, MAP is a beacon of *hope*.**

**MAP International** is a Christian nonprofit global health organization that believes that everyone deserves the chance to be healthy and whole — and to live life to the fullest — no matter where they live. MAP serves all people regardless of religion, gender, race, nationality or ethnic background.

The medicine crisis is daunting. But together, we are saving lives and transforming communities all over the globe, providing health, hope, and **medicine for all people**.

## REFLECTING ON 2024: MESSAGE FROM OUR PRESIDENT & CEO

It has been a year of deepening our partnerships, expanding our impact, and planning for strategic growth. When former President and CEO, Steve Stirling, retired last year, he handed over to me an organization and team that not only possessed an incredible passion for improving the health of the poor, but that also stood on a strong foundation.

I am grateful for the legacy of compassion, efficiency, and integrity that Steve began. More work is left to do. More medication is left to deliver. More of our global friends, family, and neighbors pray daily for medication, medical treatment, and healthcare services. I am glad for the strong foundation laid, and for the positive handoff of an exceptional company. Together, we will continue MAP International's work, serving alongside our supporters, partners, and staff to use our resources to do the most good for the most people possible.

In 2024, with the help of our generous pharmaceutical and healthcare supply donors, our precious financial donors, and our network of many hundreds of partners, MAP delivered \$889.9 million (wholesale acquisition cost value) worth of medicine to people in need in 92 countries across the world. Together, we provided \$22.3 million in emergency response, sending Interagency Emergency Health Kits (IEHKs) to 5 countries.

MAP's Domestic Medicine Program continues to make a transformative difference for the low income, uninsured in our own country as well. In 2024, MAP medicine and health supplies supported 87 clinics in 7 states across the U.S., providing over 290,000 patient treatments for those who would not otherwise be able to afford medication.

Looking back on what we accomplished together in 2024, it is clear that God's favor has been upon every aspect of MAP's mission, connecting us with the people and organizations we need to help us make a measurable difference in global and domestic health. From

the financial donations and gifts-in-kind that we receive, to the moment that a sick child receives lifesaving medicine, partnerships have been the key to sustaining MAP's supply chain of hope, and we are grateful for each of you.

The people we have the honor of serving, our on-the-ground partners, and our faithful supporters who so generously supply us with the resources to help – all are precious. By connecting your generosity with the need we see in the world, together we can achieve a profound impact.

In 2025, our mission of bringing medicine to a world in need will resolutely continue. Our impact, however, will increase and deepen. The medicine that your generosity helps distribute improves health outcomes, protects education, halts the spread of disease, restores hope, and saves lives.

Thank you for your incredible generosity towards MAP's patients this last year. With operational systems in place, deep partnerships built on trust, and the faithfulness of our MAP family of supporters, we will transform the lives of even more people in 2025.

Chris Palombo  
President and CEO

# 2024

**In 2024, MAP International celebrated 70 years of global impact.** What began with a single donation

of medicine 70 years ago is now a global organization delivering millions of patient treatments to people in need around the world. Because of the ongoing generosity of MAP's caring supporters, we've watched yesterday's legacy become tomorrow's hope.

# 70

years of  
medicine

Drawing on a 70-year history of humanitarian service, MAP International continues to evolve and innovate in its mission to make the world a better place for everyone across the globe. As an organization, MAP is well-positioned to continue building on this legacy of hope, transforming communities through access to lifesaving medicine.

*We delivered 47.7 million life changing patient treatments in 2024.*

Republic Of The Congo • Dominican Republic • Ecuador • Egypt • El Salvador • Eswatini • Ethiopia • Fiji • Gabon • Gambia • Georgia • Ghana • Greece • Guatemala • Guinea • Guyana • Haiti • Honduras • India • Iraq • Jamaica • Jordan • Kenya • Kyrgyzstan • Latvia • Lebanon • Lesotho • Liberia • Libya • Lithuania • Madagascar • Malawi • Mauritius • Mexico • Moldova • Mongolia • Morocco • Mozambique • Myanmar (Burma) • Namibia • Nepal • Nicaragua • Niger • Nigeria • Pakistan • Palestine • Panama • Papua New Guinea • Paraguay • Peru • Philippines • Romania • Saint Vincent and The Grenadines • Senegal • Sierra Leone • Somalia • South Africa • South Sudan • Sudan • Syria • Tanzania • Thailand • Togo • Trinidad And Tobago • Tunisia • Turkey • Turks and Caicos • Uganda • Ukraine • United Arab Emirates • United States • Venezuela • Vietnam • West Bank • Zambia • Zimbabwe

## PROGRAMMATIC HIGHLIGHTS

### 9,146,664 PRENATAL VITAMIN TREATMENTS

Proper nutrition during pregnancy is vital for the health of both mothers and their babies. In 2024, MAP International provided 9,146,664 patient treatments with prenatal vitamins, ensuring that women in underserved communities received the essential nutrients needed for a healthy pregnancy. These vitamins help prevent complications, promote healthy fetal development, and support the well-being of mothers, contributing to stronger, healthier families around the world.

### 2,332,880 ANTI-INFECTIVES + ANTIBIOTICS TREATMENTS

Infections remain one of the greatest global health challenges, especially in communities with limited medical access. In 2024, MAP International provided 2,332,880 patient treatments with lifesaving anti-infectives and antibiotics, ensuring that preventable infections didn't become deadly. By delivering

these critical medicines, MAP is helping patients recover, protecting public health, and strengthening healthcare systems worldwide.

### 849,766 ORAL REHYDRATION SOLUTION TREATMENTS

Severe dehydration can lead to critical electrolyte imbalances, malnutrition, organ failure, and even death, especially among children. This condition is treatable, and the loss of life is preventable. In 2024, MAP International provided 849,766 patient treatments with oral rehydration solutions, helping to save lives by restoring essential fluids and electrolytes. These simple yet powerful treatments are critical in preventing severe complications and ensuring recovery for those in need.

### OVER 617,000 PEDIATRIC ANTIBIOTICS TREATMENTS

Each year, millions of children under five die from preventable diseases like pneumonia,

diarrhea, and malaria—many of which could be treated with access to basic medicine. In 2024, MAP International provided over 617,000 pediatric antibiotic treatments, giving children a chance to recover and thrive. By delivering these lifesaving medicines, we are fighting preventable deaths and ensuring that more children grow up healthy and strong.

### 2,466,523 PAIN AND FEVER REDUCER TREATMENTS

In 2024, MAP International provided 2,466,523 patient treatments with pain and fever reducers, offering relief to those suffering from illness, infection, and chronic conditions. These essential medicines help manage pain, reduce high fevers, and improve quality of life for millions—especially in communities with limited healthcare access. By ensuring widespread availability of these treatments, MAP continues its mission of bringing comfort and healing to those in need.

### 12,784,000 DEWORMING TREATMENTS

Intestinal worms remain a significant health issue, particularly in developing regions, causing malnutrition, anemia, and impaired growth in children. In 2024, MAP International provided 12,784,000 patient treatments with deworming medications, helping to rid individuals of harmful parasites and improve their overall health. These treatments are a vital tool in breaking the cycle of poverty and illness, ensuring that communities have the chance to thrive and reach their full potential.

# 2024

## *emergency response*

In the aftermath of natural disasters and in times of emergency, MAP stands ready to respond, rapidly delivering relief to those who are suffering, so that they know they have not been forgotten.

In 2024, volunteers donated 7,331 hours of their time to pack 85,431 Disaster Health Kits. Each kit contains enough hygiene supplies and basic first aid items to support a survivor for an entire week following a disaster.

**85,431**  
disaster health kits  
SENT AROUND THE WORLD

Additionally, MAP sent 8 Interagency Emergency Health Kits (IEHKs) to 5 countries (Libya, Haiti, Morocco, Lebanon, and Jordan). Each IEHK contains carefully selected medicines that are in high demand during times of disaster, like antibiotics and chronic disease medications. These kits provide enough medicine to serve 10,000 people for 90 days, putting lifesaving supplies in the hands of healthcare providers who are on the ground caring for patients fleeing crisis situations.

**\$22.3** million  
IN DISASTER RELIEF

Interagency Emergency Health Kits (IEHKs) provided enough medicine to serve **80,000** people

SENT TO FIVE COUNTRIES: LIBYA, HAITI, MOROCCO, LEBANON, JORDAN

**10** emergency responses  
MIDDLE EAST CONFLICT, HAITI, JAMAICA, LEBANON, LIBYA, MOROCCO, SUDAN, TURKEY, UKRAINE, UNITED STATES

**20** MAP FELLOWS  
MEDICAL STUDENTS  
SPONSORED AND  
**14** COUNTRIES SERVED

In 2024, MAP International sponsored 20 medical students through the MAP Health Fellowship Program, empowering the next generation of healthcare leaders to serve in communities with the greatest need. These fellows provided care in 14 countries, gaining hands-on experience while delivering life-changing medical treatment to underserved populations. By equipping future medical professionals with the resources and support to serve globally, MAP is not only addressing immediate healthcare needs but also fostering a lifelong commitment to compassionate, mission-driven care.

**1K+** MEDICAL  
MISSION ORDERS FILLED

Access to medicine can mean the difference between life and death for people in underserved communities worldwide. In 2024, MAP International filled over 1,000 medical mission orders, equipping doctors, nurses, and volunteers with essential medicines and supplies to serve those in desperate need. By supporting these missions, MAP extends its impact beyond borders, ensuring that healthcare reaches the world's most vulnerable populations.

**4,306**  
VOLUNTEERS SERVED  
**10,272** HOURS

Volunteers are the heart of MAP International's mission, and in 2024, their dedication made a powerful impact. A total of 4,306 volunteers contributed 10,272 hours of service. Their time and effort directly supported our ability to reach communities in need.

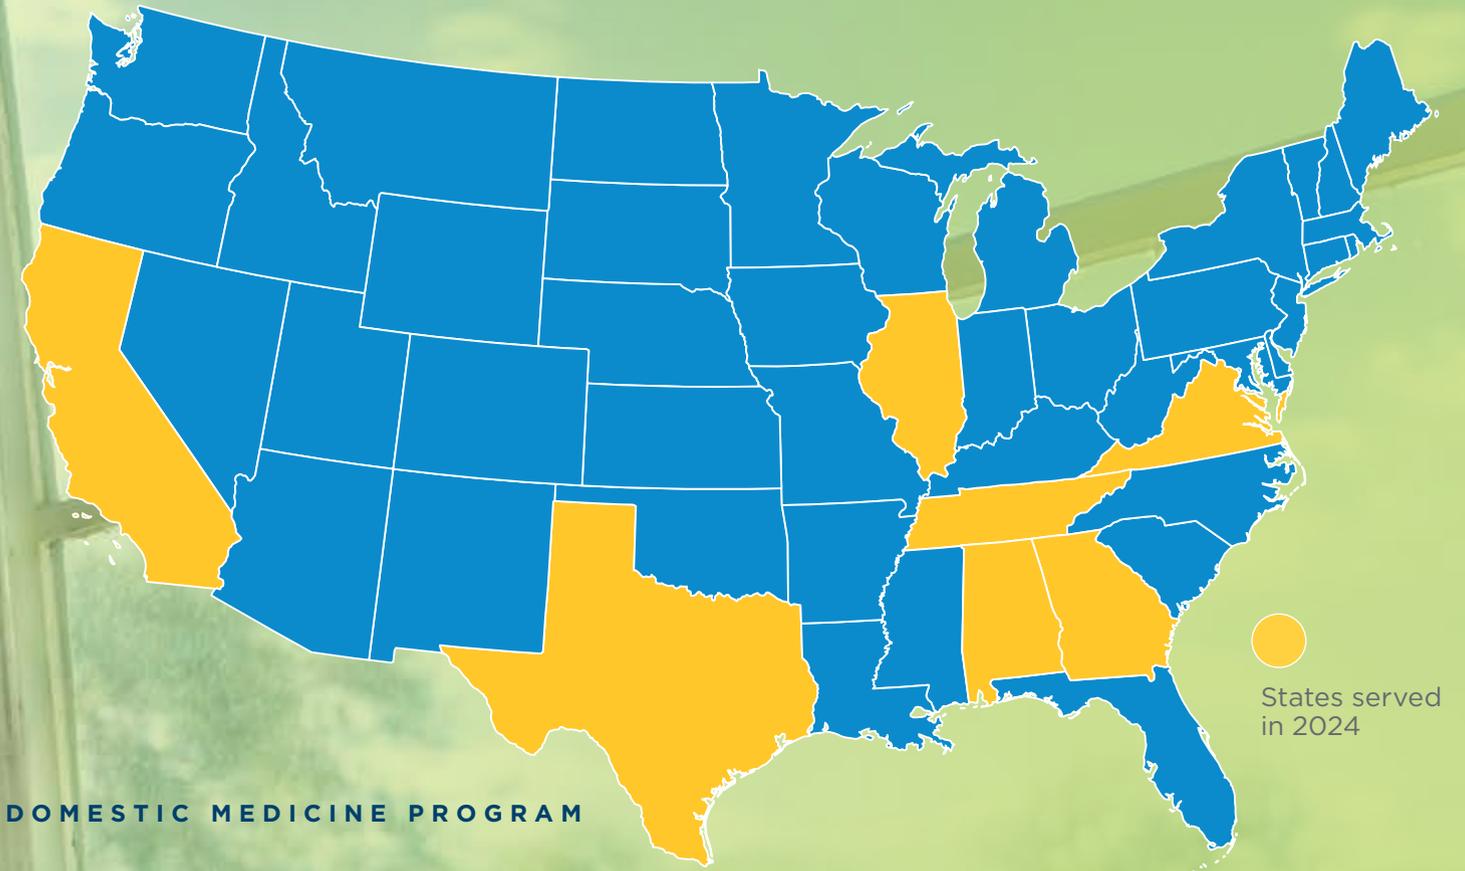

For the most  
vulnerable people,  
MAP medicine  
provides health  
and *hope.*

# 290,171

DOMESTIC PATIENT TREATMENTS

## DOMESTIC MEDICINE PROGRAM

**290,171 TREATMENTS PROVIDED  
ACROSS 7 STATES + 87 TOTAL CLINICS**

Millions of people across the U.S. struggle to afford the medicine they need to manage chronic conditions. Nearly 30 million Americans live without health insurance, and an estimated 1 in 4 people say they or a family member have skipped filling a prescription due to cost. MAP International is bridging this critical gap by providing life-changing medicine to those in need. Through our Domestic Medicine Program in 2024, we partnered with 87 clinics across seven states, delivering an incredible 290,171 patient treatments—ensuring that more people can access the care they deserve, regardless of their financial circumstances.

Together with our partners, we build a supply chain of *hope.*

**739**  
on-the-ground partners

THE POWER OF PARTNERSHIP

WE APPRECIATE OUR ON-THE-GROUND PARTNERS

When you support MAP, you are helping us put medicine into the hands of our on-the-ground partners who are doing the hands-on work of administering healing and hope to those in need.

MAP's model of service is built on strong partnerships and collaboration. Our network of trusted partners serve as the hands and feet of Jesus to the poor and vulnerable among us, both domestically and abroad. MAP tailors each shipment of medicine and health supplies to meet the specific needs of the communities that our partners serve. These partners then use MAP medicine strategically to reach as many people as possible. At MAP, we call this our "supply chain of hope," and each of our on-the-ground partners is a vital link in helping us make the most of the resources that we have been given — doing the most good for as many people as possible.

THE POWER OF PARTNERSHIP

WE ARE GRATEFUL FOR OUR PHARMA AND HEALTHCARE PARTNERS

Our corporate partners are helping restore hope for millions of people who depend on MAP medicine. MAP connects the compassionate donations from healthcare and pharmaceutical companies with our on-the-ground partners who are treating patients in need. Without the kindness and generosity of our corporate partners, we would not be able to serve the many mission hospitals, rural health clinics, and field doctors that depend on us for medicine to save and transform lives. Because of their collaboration and partnership, MAP is making a measurable impact in the advancement of global health.

## Lucida is grateful for an impactful partnership that brought her life-sustaining help.

It had been 7 months since Lucida gave birth to her second child. And for 7 months, she had suffered from mysterious pains. Her baby also was clearly suffering now too — he cried all day and was difficult to settle. Sleep, for both of them, had become a distant memory.

Living in rural Sierra Leone, Lucida's family is like most others in her community — scraping by day by day, no money for “extras” like healthcare. She had been farming vegetables as a way to help support the family, but Lucida recently had to abandon her work in order to seek treatment for herself and her baby.

She visited health center after health center and received medicines from all of them — all of which seemed to make them feel worse instead of better. Desperate and exhausted, Lucida approached a MAP-supported clinic, where she finally found help.

The doctors there treated Lucida and her baby for infections, administering pediatric antibiotics to the child and oral rehydration solution (ORS) for both of them — treatment that was available because of a generous shipment from MAP International.

MAP International was able to provide ORS supplies to this particular clinic because of a partnership with **Liquid I.V.**, a company that believes that access to safe and clean water is a basic human right. Liquid I.V. began donating ORS drink mix “sticks” to MAP in 2020 — a desperately needed resource that MAP has been able to distribute to families all over the world just like Lucida and her baby. In 2022, MAP's partnership with Liquid I.V. expanded to include grant support for water access in Burkina Faso and Liberia. After a collaborative site visit with MAP to Liberia in 2023, Liquid I.V. expanded their regular donations to include Immunity Sticks, an ORS mix that also incorporates Vitamin C and zinc to support a healthy immune system.

**This partnership between MAP and Liquid I.V. is based on the concept of Trust Based Philanthropy**, a movement to create a culture of mutual accountability between funders and nonprofits — partnerships based more on trust and collaboration than on compliance and control.

MAP's relationship with Liquid I.V. has resulted in more impactful philanthropy. Liquid I.V.'s generous donations have been strategically distributed to address the specific needs of the communities that MAP-supported clinics are serving — clinics like the one that treated Lucida and her baby.

After a week at the clinic, the baby began to respond to the treatment. Lucida also began to feel more like herself, and they both were discharged home.

A week later, Lucida returned to the clinic to report that she and her baby were doing well, and their health was improving. Through tears, Lucida expressed her gratitude to the nurses and to MAP for the medicine she and her child received. “Let me thank God that I am able to walk and return to this health center with improvement in my health,” she said. “I appreciated the work of the nurses and also MAP International for my treatment.”

For every \$1 you contribute, you help MAP International provide nearly \$65 in medicine and health supplies to people in need.

We can make this statement because MAP receives generous donations of medicine and health supplies and has relatively low expenses. In fact, last year alone we provided over \$911.9 million in medicine and health supplies with nearly \$14.1 million in cash donations. For more information, visit [map.org/mapfacts](http://map.org/mapfacts).

When you choose to invest in MAP, you place your trust in us as responsible stewards of your funds. We're dedicated to being transparent in all our actions, upholding the highest integrity to earn your confidence. This dedication extends throughout every aspect of our operations, resulting in MAP achieving top levels of accreditation from nonprofit watchdog organizations.

Met the 20 Standards for Charity Accountability set by the Better Business Bureau.

Earned a coveted four-star rating, the highest level of achievement, including a 100% score for accountability, finance, leadership and adaptability.

Awarded the highest level of recognition offered by GuideStar, the world's largest source of nonprofit information.

Accredited by the Evangelical Council for Financial Accountability to uphold the highest standards of integrity and accountability.

MAP is a founding member of PQMD, a leading organization aiming to improve the standards of donating and delivering health services and product globally.
